

Authorship of SOCCR/SAP 2.2

- **Authors must be acknowledged experts in appropriate fields**
- **Candidate authors were identified in the proposal process, and in subsequent deliberations of the Coordinating Team and discussions with stakeholders, lead agencies and through technical and public review.**
- **Lead chapter authors will be responsible for the review and synthesis of current knowledge and production of text. They will be responsible for recruiting well-qualified contributing authors in their areas of expertise and responsibility.**
- **A lead authorship team has been identified.**

SOCCR/SAP 2.2 Authorship

We've organized the content of the SOCCR/SAP 2.2 into chapters.

We've adopted an IPCC-like structure for each chapter of:

- Coordinating Lead Author(s)
- Lead Author(s)
- Contributing Authors

All authors will be listed in association with their chapters in the final report

Lead Authors' Roles and Responsibilities

- **Lead authors will be responsible for the review and synthesis of current knowledge and the production of text.**
- **Production includes drafting and revision in response to comments from peer review, public comment, and government review.**
- **Lead authors will be responsible for recruiting well-qualified contributing authors in their areas of expertise and responsibility.**
- **Lead authors are financially compensated as subcontractors on the project, contributing authors are not.**
- **Lead authors will be responsible for coordinating and integrating contributions from their chapter's authorship team and delivery of drafts and revisions to the Coordinating Team.**
